NOTES: 10+ acres in an economic growth area at the Southwest corner of the Suncoast Parkway /W. Cardinal St. Interchange. The off-ramp is complete with great visibility. If you missed our last offer for 8.4 acres which sold in 2023 for \$700,000 at the Northeast corner, here is your chance to buy in the Southwest corner before values go up! Citrus County's Future Land Use map places this property as part of an Economic Development Target Area (EDTA - ord.2021-A11) with a CMU designation (Commercial Mixed-Use) supporting projects that are functionally integrated around the interchange. Potential uses include light industrial/manufacturing, transportation and distribution, or travel center with fuel, restaurants, with mixed-use Office/retail/hotel/government facilities! It can also include low density residential (single family homes), or higher density residential (townhomes or apartments) with mixed-use applications. Developers must first determine topography, availability and access to utilities and/or planned extensions, and then will need to submit a PUD application to be approved by the Citrus County BOCC. Priced competitively at under \$70K/acre! Call now! Don Wallace or Philippe Beau with Klein and Heuchan, Inc., at (727) 441-1951.
